
Unified Health Services Expands Complex Claims Expertise with Acquisition of Sunbelt Medical Financial

March 2025 – Unified Health Services, LLC ("UHS"), a portfolio company of Reynolda Equity Partners ("Reynolda"), has acquired Sunbelt Medical Financial, LLC ("Sunbelt").

Based in Memphis, TN, UHS is a provider of end-to-end revenue cycle management ("RCM") solutions for Workers' Compensation claims, serving a diverse array of healthcare providers. The UHS solution leads to increased collection rates and shortened days to collect payments, while standardizing, automating, and coordinating workflows across healthcare providers' multiple departments and locations. This enhances their clients' operating efficiency and profitability while also helping them better serve their patients.

Sunbelt, headquartered in Fort Lauderdale, FL, is a leading provider of outsourced receivables management primarily focused on the collection of international claims on behalf of domestic healthcare providers serving international patients. The Sunbelt team, led by David Agarth, is highly regarded by its clients for its deep expertise in the highly complex area of international claims billing and collections, as well as for its unmatched level of integrity and customer service.

The partnership with Sunbelt expands UHS' service offerings into another sizeable, growing, and attractive area of complex claims and gives UHS an additional exciting avenue for continued growth. UHS is pleased to partner with Sunbelt, to share best practices and to continue to provide best-in-class RCM services, across both Workers' Compensation and international claims, to the combined customer base.

"We are incredibly excited about our partnership with Sunbelt and the opportunity to work together to support each other's continued, rapid growth,"

said Michael Reece, CEO of UHS. "We could not be more enthusiastic about the opportunity ahead for the combined UHS and Sunbelt, and we are looking forward to working closely with David and his team, with whom we have a strong cultural alignment and shared values, to achieve our collective goals and to continue to provide the best possible service to our customers."
